

## **EEMUA® 159 Training Scheme**

---

### **TankAssessor™ entry requirements**

Delegates should meet **one** of the following criteria:

#### **Option 1: Industrial Route**

- A minimum of five (5) years' continuous experience working in the inspection and maintenance of storage tanks (in excess of 150 m<sup>3</sup>)
- Ability to work with scientific formulae and calculations

#### **Option 2: Academic Route**

- An engineering degree (e.g. BSc) from a recognised university
- A minimum of one (1) year's relevant experience working in the inspection and maintenance of storage tanks (in excess of 150 m<sup>3</sup>)

If you do not meet these requirements but would like to be considered for the course, please contact [events@eeemua.org](mailto:events@eeemua.org) and provide an overview of your experience, and we will consider your application on an individual basis.
